Build@Home, more accessible internationalisation at home

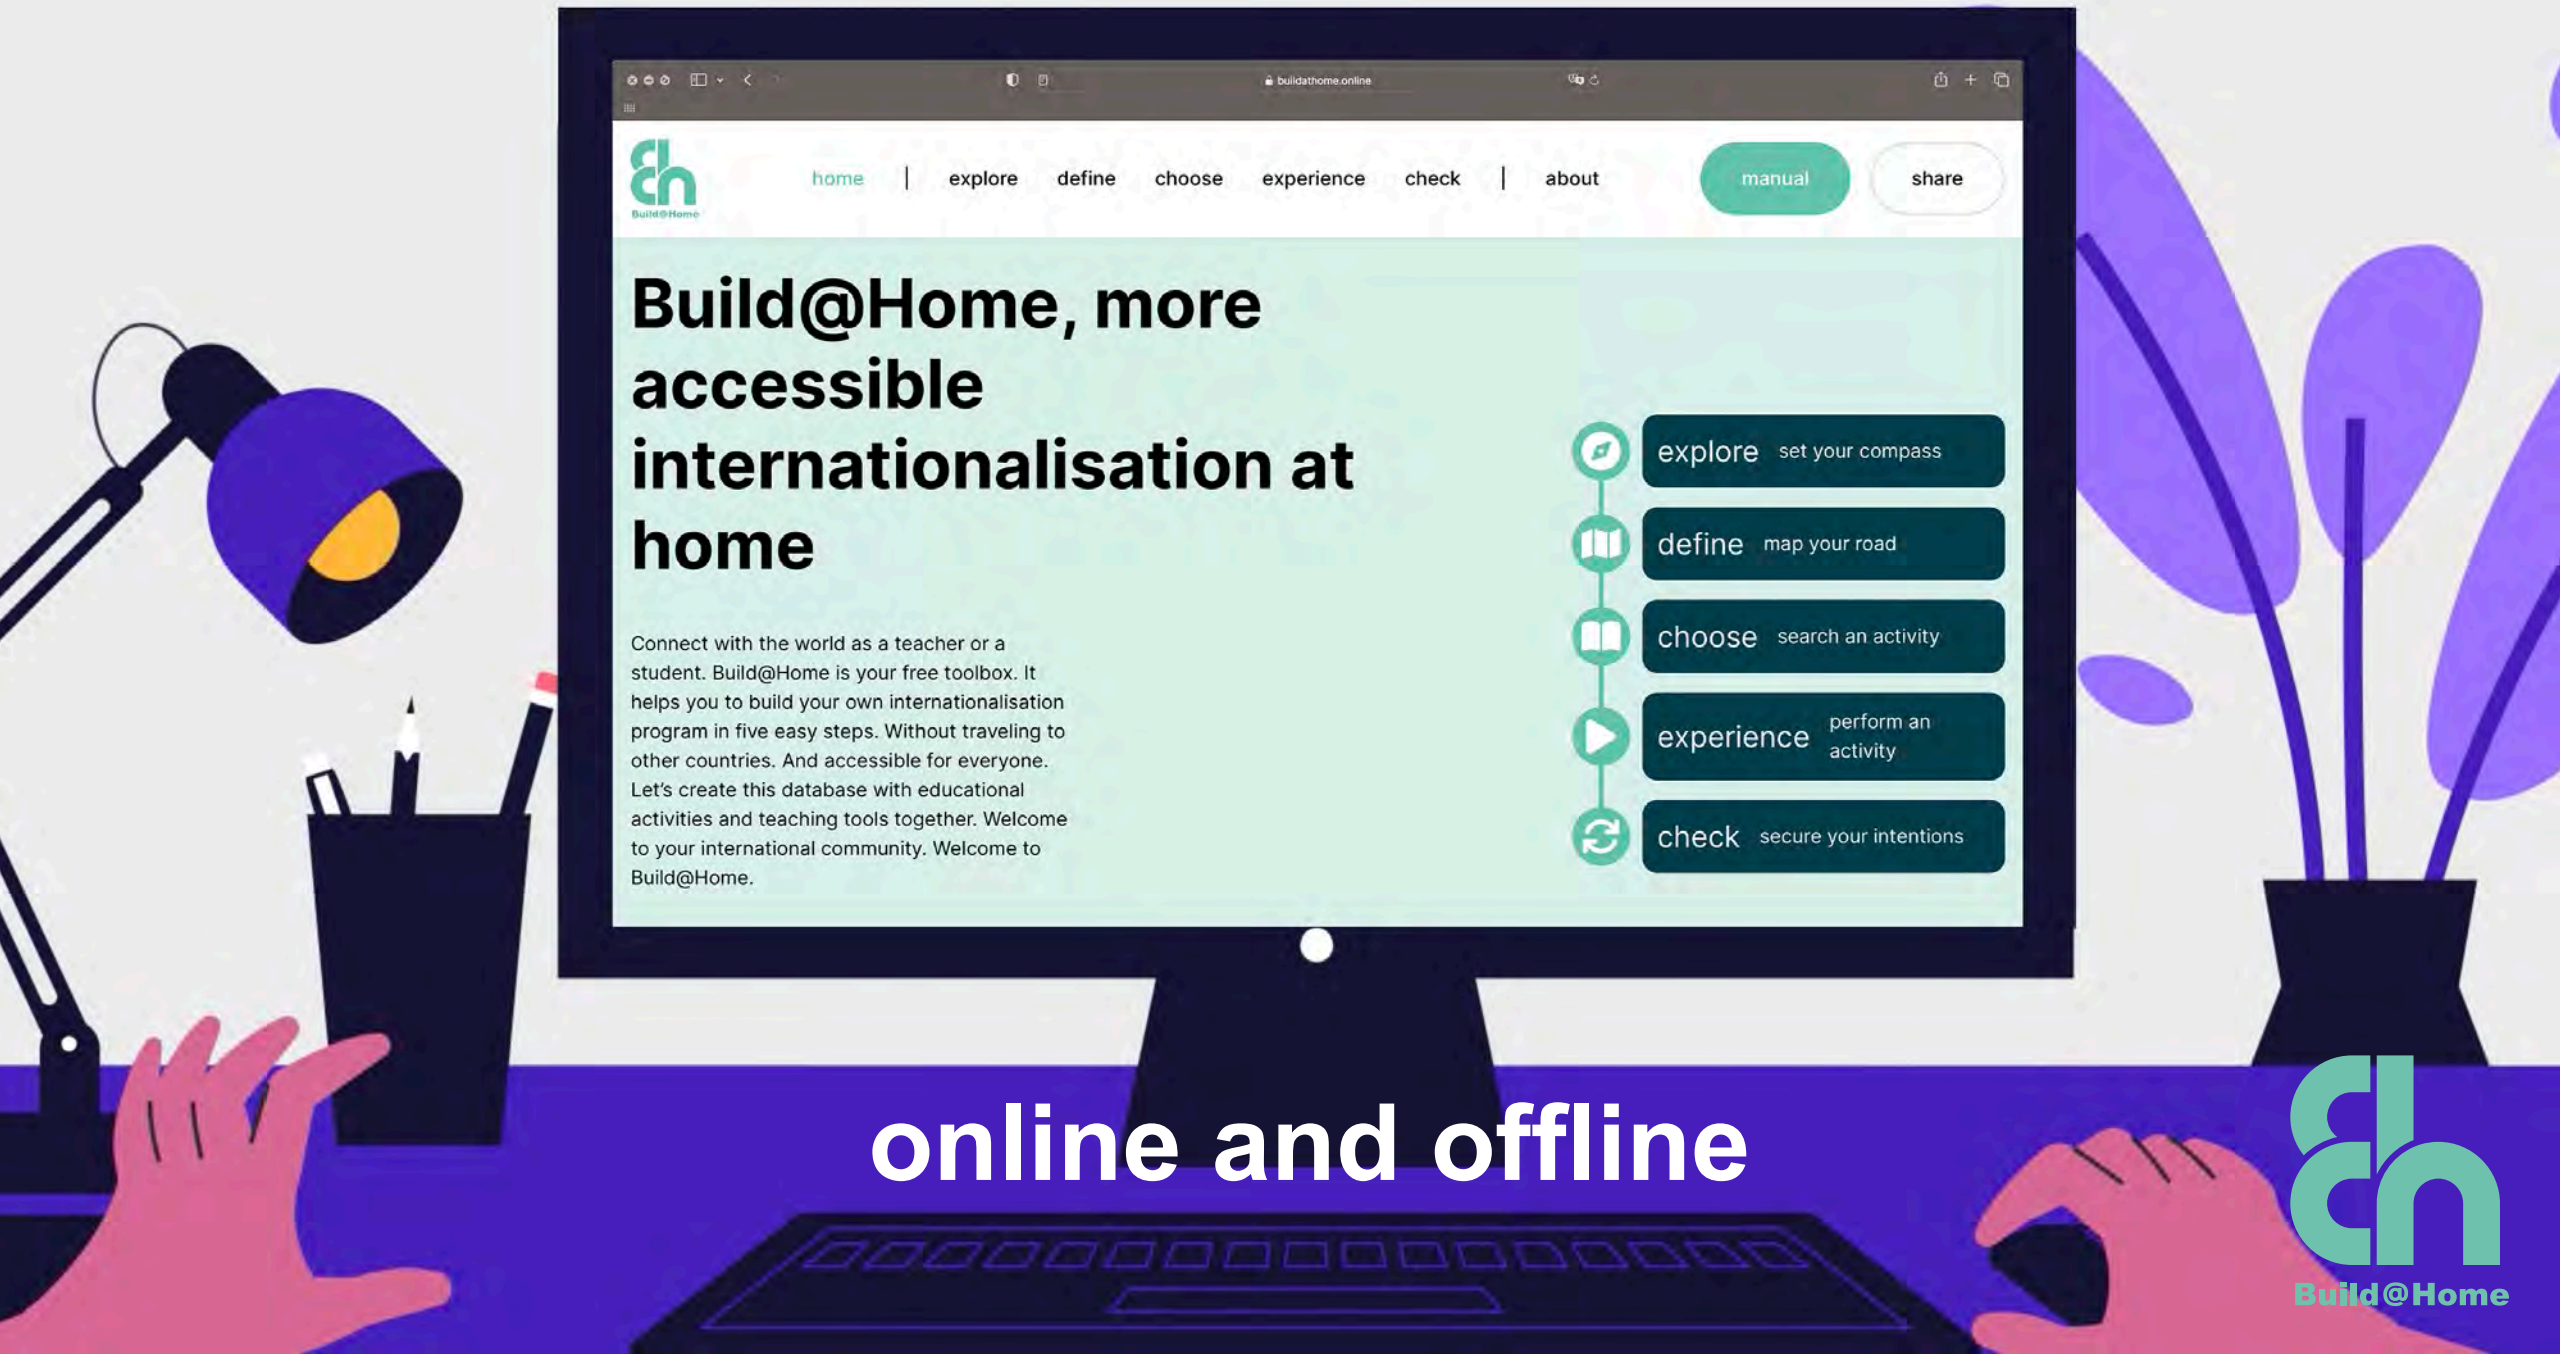
an introduction

Build@Home

about Build@Home

Connect with the world as a teacher or a student. Build@Home is your free toolbox. It helps you to build your own internationalisation program in five easy steps. Even without traveling to other countries. And accessible for everyone. Let’s create this database with educational activities and teaching tools together. Welcome to your international community. Welcome to Build@Home.

Build@Home



online and offline

Build@Home

five easy steps

1 explore set your compass

2 define map your road

3 choose search an activity

4 experience perform an activity

5 check secure your intentions
